Make your point in any meeting with this portable, energy efficient wireless projector

The VPL-DX126 wireless desktop projector offers an ideal blend of portability, environmentally friendly features and low running costs. Easy to set up and refreshingly simple to use, it makes an ideal presentation partner for small- to medium-sized meeting rooms.

3LCD BrightEra™ panel technology by Sony assures crisp, high contrast XGA images with excellent colour stability.

LAN and USB connectivity makes the VPL-DX126 great for 'PC-free' and networked presentations. The supplied Wi-Fi module also allows wireless presentations directly from your iPhone or iPad using the Pixelworks VueMagic Pro app for iOS (also available for Android late 2013).

There's a wide range of smart energy-saving features built in. And with extended lamp life up to 7,000 hours, downtime and maintenance costs are minimised.

The VPL-DX126 comes as standard with PrimeSupport by Sony, a valuable package of benefits to keep you up and running without the worry of unexpected costs: 2 years collect, repair and return service for main projector unit anywhere in the EU, Norway and Switzerland 1 year or 1000 hours lamp replacement cover Free telephone helpdesk support in English, German, French, Italian and Spanish

Ausstattung

Clear, bright images with maximum 2600 lumens colour light output

Easily view clear presentations in any small- to mid-sized meeting room or boardroom. There's a choice of three brightness modes to suit any environment, from bright daylight to darkened rooms.

XGA resolution for crisply-detailed presentations

The native XGA (1024 x 768) 4:3 screen resolution panel offers lots of clear detail: perfect for making presentations direct from a laptop, PC or mobile device.

3 LCD BrightEra™ Technology

The efficient 3LCD panel system is enhanced by advanced BrightEra™ technology by Sony. You'll see the

difference with impressively bright, high resolution images and increased panel reliability.

Six Picture Modes to suit any subject

A choice of six picture modes (Dynamic, Standard, Game, Blackboard, Cinema and Presentation) offers optimised picture quality with any source material. Picture modes can be combined with three brightness modes (High, Standard, Low) to suit virtually any presentation requirement.

Generous throw ratio adjustment

The versatile 1.47 - 1.77:1 throw ratio adjustment range accommodates easy setup in most room sizes.

Vertical Keystone Adjustment

Even if the projector is aligned too high or too low in relation to the screen, keystone adjustment electronically adjusts the projected image for an accurately-proportioned picture with true verticals.

Smart APA (Auto Pixel Alignment)

Phase, Pitch and Shift values are automatically optimised when using the projector with a PC source.

Present wirelessly from your mobile device

The supplied IFU-WLM3 USB Wi-Fi module allows easy cable-free connection with other devices, from PCs to smartphones or tablets. Download the Pixelworks VueMagic Pro app for iOS and make wireless presentations direct from your iPhone or iPad (Android available late 2013).

Deliver networked presentations from any PC

It's easy to project presentations from a network-connected PC, either wirelessly (using supplied Wi-Fi module) or via a LAN cable. Projector functions and status can also be monitored and managed remotely from any PC on the network.

View image files straight from USB

Slip in a USB drive to effortlessly display photos, images and graphics with no PC needed.

Get closer with Digital Zoom

Instantly magnify a selected portion of the screen by up to 4x for a really close-up view of images from a connected PC.

Up to 7000 hours lamp life for reduced maintenance and down time

Longer lamp life and reduced maintenance contributes directly to lower lifetime ownership costs. Filter cleaning cycles are synchronised with lamp replacement, cutting scheduled maintenance visits even further.

Save energy at the touch of a button

Easily select power-saving Eco Modes with a single button push; additional Eco settings are easily accessible via intuitive menus.

Auto Dimming

Projector brightness is gradually reduced automatically if there's no input signal, or after a pre-set time – cutting power consumption and saving energy bills.

Picture Mute (Instant Off/On)

Touch a button on the projector remote and the picture's muted instantly – cutting power consumption down to 30% and saving lamp hours. Another touch and the projector's instantly powered back up to resume your presentation. There's also a separate button to mute audio only.

Off and Go

Switch off and unplug at the end of your presentation, then move on to your next meeting while the projector is still cooling down without damage to the lamp.

Direct Power On/Off

There's no need to go through Standby mode when powering up the projector: the projector activates as soon as power is supplied.

Auto Input Search

The projector automatically switches to the correct input, simplifying set-up and saving time.

Audio switcher facility

The projector can select between two audio sources, routing them via a variable audio output to the room amplification system.

Security that's built in

Your investment's protected with security measures including password protection, panel key lock, mechanical security lock and anti-theft bar.
