

EB-W28

DATASHEET

A portable business projector with innovative QR code connectivity¹, this 3LCD model also offers 3,000 lumens brightness.

The EB-W28 is a portable 3LCD business projector with an innovative QR code function; download the Epson iProjection app² and scan the projected QR code to connect and share content. Designed to make collaboration easy and instant, it also features high brightness and business-centric features.

Easy sharing

It's never been easier to take what you're seeing on a smart device and share it with a larger audience. The iProjection QR function means that any smartphone or tablet with the free iProjection app can scan the QR code projected by the EB-W28 to instantly connect and share content¹.

Unbeatable image quality

With WXGA resolution, 10,000:1 contrast ratio and 3,000 Lumens brightness, 3LCD technology ensures crisp images and equally high White and Colour Light Output for bright and vivid colours, and three times brighter colours than leading competitors³.

Portable design

The EB-W28 can easily be carried between meeting rooms, or installed in boardrooms.

Flexible placement

A 1.2x optical zoom and horizontal and vertical keystone adjustment makes it easy to adjust your image for your environment.

Business-centric features

Easy comparisons in meetings are possible using the split-screen functionality. Multi-PC Projection software allows moderator control and up to 50 users to share content, and Epson Network Projection provides sharing of customised settings across a fleet of projectors.

Easy installation in meeting rooms

The OSD (On Screen Display) menu setting copy feature and the ability to update firmware via USB make it easy to set-up and maintain multiple projectors in a number of meeting rooms.

KEY FEATURES

- **Easily connect smart devices**
Just scan a projected QR code to connect
- **High resolution**
WXGA resolution for detailed images
- **Great image quality**
Epson's 3LCD technology ensures a crisp image
- **High brightness**
3,000 lumens and high White and Colour Light Output
- **Built for business**
Split-screen and Multi PC Projection software
